4. Technical Considerations/Constraints	Current Proposal for LYM Phase 4	Remarks
<p>4.1 Environmental</p> <p>4.1.1 Noise</p> <p>4.1.2 Air</p> <p>4.1.3 Pedestrian Wind Environment</p>	<p>An Environmental Assessment Study (EAS) will be carried out to address the potential noise issues such as traffic noise from nearby roads and bus terminus and industrial noise from nearby industrial buildings (e.g. Yau Tong Industrial Building) associated with the proposed development and will be submitted to Environmental Protection Department (EPD) for agreement separately.</p> <p>An EAS will be carried out to address the potential air quality issues such as vehicular emissions from nearby roads and chimney emission from nearby industrial buildings (if any), and odour nuisance from the nearby typhoon shelter associated with the proposed development and will be submitted to EPD for agreement separately.</p> <p>Quantitative Air Ventilation Assessment (AVA) will be conducted in accordance with the Technical Circular No. 1/06 for assessing the effectiveness of the mitigation measures and for further scheme optimization. Design improvement and ventilation improvement measures will be implemented as identified in the AVA, where appropriate.</p>	<p>No insurmountable problem is anticipated.</p> <p>No insurmountable problem is anticipated.</p> <p>To ensure satisfactory pedestrian wind environment throughout the year at this development and its surrounding areas, micro-climate study will be carried out at detailed design stage and proper mitigation measures would be incorporated, if required.</p>
<p>4.2 Infrastructure</p> <p>4.2.1 Drainage and Sewerage</p>	<p>Drainage Impact Assessment will be carried out in accordance with ETWB TC(W) No. 2/2006. Sewerage Impact Assessment will be carried out to assess any potential impacts on the local/nearby sewerage system and recommend appropriate mitigation measures for implementation and submitted to EPD for agreement.</p>	<p>No insurmountable problem is anticipated.</p>

4. Technical Considerations/Constraints	Current Proposal for LYM Phase 4	Remarks
4.2.2 Water Supply	Calculation for the consumption of potable water and flush water at the development will be submitted to Water Supplies Department for agreement separately.	No insurmountable problem is anticipated. HD will liaise with WSD's Kowloon Regional Office for the water connection points.
4.2.3 Electricity, Telephone, Gas	HD will liaise with utilities supplier as and when necessary.	No insurmountable problem is anticipated.
4.2.4 Roads/Traffic Improvement	Traffic Impact Assessment (TIA) Report was submitted to Transport Department (TD) and there was no adverse comment from TD. Subject to any further change in parameters, TIA will be updated and resubmitted to TD for agreement.	No adverse impact is anticipated.
4.2.5 Geotechnical Requirements	Geotechnical design/ works to be agreed with the relevant department(s) as and when necessary.	No adverse impact is anticipated.
4.3 Urban Design, Visual and Landscape	Building design would be compatible with the surrounding development as far as practicable.	Mitigation measures to minimise the visual impact of the proposed development as reflected in the relevant Visual Appraisal will be explored at the detailed design stage.

<b>4. Technical Considerations/Constraints</b>	<b>Current Proposal for LYM Phase 4</b>	<b>Remarks</b>
4.4 Green Coverage	A minimum of 20% green coverage to be provided. A target of at least 50% of the overall green coverage being at-grade will be provided as far as feasible.	PlanD & HD - Guiding Principle on Green Coverage for Public Housing Developments” will be followed including a minimum of 3 trees per 100m <sup>2</sup> of the total green coverage, and para.10a of the Guiding Principles which states that “Achieve an overall target of 30% green coverage. Subject to individual site characteristics and constraints, a lower percentage of green coverage could be considered on a case by case basis. Green coverage of at least 20% should be considered as a minimum unless constrained by special circumstances as mentioned in paragraph 11”.
<b>5. Development Programme</b>	<b>Current Proposal</b>	<b>Remarks</b>
5.1 Foundation Commencement	2020/21	Tentative date.
5.2 Building Completion	2025/26	Tentative date.

## Notes

1. NET SITE AREA (NSA): In accordance with the Hong Kong Planning Standards and Guidelines (HKPSG), the NSA should exclude:
  - (a) district and public open space, public recreation facilities, free-standing schools and community facilities (including those on the podium), open-air public transport terminal / interchange;
  - (b) internal roads; and
  - (c) natural vegetated slopes and man-made slopes (for the latter, except slopes regraded to form developable area).
2. NUMBER OF FLATS AND DESIGN POPULATION: To allow flexibility in the design,  $\pm 10\%$  adjustment will be allowed for the number of flats and design population together with corresponding adjustment to ancillary facilities in line with HKPSG or the requirements of client departments. If a project remains within the 10% allowance, no revision to Planning Brief and no re-submission to DipCon is necessary subject to no adverse comments from client departments on the corresponding adjustments to ancillary facilities.
3. GROSS FLOOR AREA (GFA): If covered public transport terminal/interchange be provided, it should be accountable for GFA calculation. Underground portion of sewage pumping station to be discounted from GFA.
4. PLOT RATIO (PR): PR should be calculated on the basis of net site area.
5. MAXIMUM GFA, PR AND NUMBER OF STOREYS OR BUILDING HEIGHT: OZP restrictions have to be specified under the Remarks column. The maximum GFA, PR and No. of storeys or building height for the current proposal should be based on the optimal development intensities of the site with reference to relevant planning studies or proposal by PlanD, or HD, with justifications instead of blanket adoption of the maximum development restrictions stipulated in the OZP.
6. MAXIMUM NUMBER OF STOREYS OR BUILDING HEIGHT in mPD: Should there be variations in height limits across the site, the different maximum heights in mPD at main roof level or number of storeys permitted should be indicated on a plan.
7. PLANNING REQUIREMENTS: The District Planning Officer will check compliance with the HKPSG where appropriate.
8. SOCIAL WELFARE AND COMMUNITY FACILITIES: District and territorial welfare/community facilities are determined by client departments (SWD, HAD, etc.) and any site area involved in free standing facilities should be excluded from site area for PR calculation.
9. RETAIL AND COMMERCIAL FACILITIES: HD will determine the amount of retail floor space required in the development.
10. PEDESTRIAN WIND ENVIRONMENT: HPLB/ETWB Joint Technical Circular No. 1/06 on Air Ventilation Assessments to be referred, if appropriate.
11. DEPARTMENTAL COMMENTS: Following circulation, a summary of comments with responses should be included in the appendix for submission of the draft planning brief for endorsement by DipCon.
